Know the Result BEFORE Painting

The wear test is sure, but mighty expensive, when paint proves bogus and there is a bill for resurfacing and repainting. The one certain way is to know beforehand that paint is time-tried and weather-tested. You can bank on

Dutch Boy Atlantic White Lead

pure linseed oil, turpentine and driers, tinted any color you wish. White-lead paint of this kind penetrates into wood pores, anchors there and dries hard. It holds on until it wears out. Dusting off is the only preparation for repainting.
